

SALMAN KHAN

FULL-STACK DEVELOPER

PROFILE

I am a dedicated Full Stack Developer with a passion for building responsive and scalable web applications. With expertise in Node.js, React.js, Next.js, and TypeScript, I focus on developing modern, efficient, and robust solutions that meet both user and business needs. Over the course of my career, I have successfully delivered a variety of projects, each showcasing my ability to tackle complex functionalities and deliver seamless user experiences. My commitment to continuous learning and attention to detail drives me to stay updated with the latest technologies and best practices, ensuring that my work is always at the forefront of innovation.

WORK EXPERIENCE

AlimcoSoft Pvt Ltd, Islamabad

JULY 2023 - JULY 2024

Full Stack Developer

As a Full Stack Developer at Alimcosoft for a year, I specialized in building robust and scalable web applications using Node.js, React.js, and TypeScript. I successfully managed both front-end and back-end development, delivering projects that involved intricate functionality and optimized user experiences. My role entailed working closely with cross-functional teams to ensure project objectives were met and high-quality results were achieved.

LTE Marketing Agency

APRIL 2022- JUNE 2023

Full Stack Developer

During my tenure as a Full Stack Developer at LTE Marketing Agency for more than a year, I played a key role in creating scalable and efficient web applications. Leveraging technologies like Node.js, React.js, and TypeScript, I was responsible for both front-end and back-end development, ensuring seamless integration and performance. My work involved collaborating with diverse teams to drive projects from concept to completion, consistently delivering high-quality solutions that met both user and business needs.

PROJECTS

Tracker

Tracker is an employee management and chat system that our team developed at the company. Utilizing Next.js, React, and Tailwind CSS for the frontend, alongside a GraphQL and PostgreSQL backend, we created a system that streamlines employee tracking, task management, and real-time communication. This project reflects our collaborative effort in building a robust, user-friendly application that improves internal operations and team collaboration.

Neeca

As a Full Stack Developer, I spearheaded the creation of NEECA's 5-Def Portal, a comprehensive platform tailored to accommodate diverse user roles including Admin, Vendor, Lab, Printing Firm, and Customs. Leading the frontend development, I meticulously designed and implemented various components and pages, ensuring a seamless and intuitive user experience. Collaborating closely with UI/UX designers, I integrated frontend elements with backend functionalities, fostering a unified system.
