PROFILE

I am a dedicated Frontend Web Developer with a focus on creating responsive and user-friendly web applications. At Alimcosoft Pvt. Ltd. in Islamabad, I utilize my expertise in Next.js, React.js, and TypeScript to develop modern, efficient, and scalable web solutions. I have successfully delivered real-time projects that demonstrate my capability to implement complex functionalities and provide seamless user experiences. In addition to my professional work, I engage in various freelancing projects, collaborating closely with clients to bring their ideas to life.

WORK EXPERIENCE

AlimcoSoft Pvt Ltd , Islamabad

JULY 2023- JULY 2024

Frontend Developer

As a Frontend Developer at Alimcosoft Pvt. Ltd. for one year, I specialized in creating responsive and scalable web applications using Next.js, React.js, and TypeScript. I successfully delivered projects that required complex functionality and seamless user interfaces, contributing to the development of modern and efficient web solutions. My role involved close collaboration with the development team to meet project goals and deliver high-quality results.

PROJECTS

Corbett Safari

Corbett Safari is a dynamic safari booking website, Developed using Next.js, React, and Tailwind CSS. The backend is powered by PostgreSQL and GraphQL, allowing seamless interaction through GraphQL APIs. This project showcases my ability to create a responsive and engaging user interface while efficiently managing data and backend integration for a smooth user experience.

Tracker

Tracker is an employee management and chat system that our team developed at the company. Utilizing Next.js, React, and Tailwind CSS for the frontend, alongside a GraphQL and PostgreSQL backend, we created a system that streamlines employee tracking, task management, and real-time communication. This project reflects our collaborative effort in building a robust, user-friendly application that improves internal operations and team collaboration.

For detailed information on all my projects, please visit my portfolio website, where you can find comprehensive descriptions of each project.
